

Monroe County Complete Streets Design Training Workshop

Instructor Bios

Jeremy Chrzan, PE, PTOE, LEED AP

Multimodal Design Practice Lead | Toole Design Group

Jeremy is a licensed engineer in 14 states with 27-years of experience. He leads Toole Design's Multimodal Design Practice, is a Public Right-of-Way Accessibility Guidelines (PROWAG) and pedestrian accessibility expert, serves as a voting member on the Uniform Traffic Control Devices (NCUTCD), was the lead engineer for the development of the American Association of State Highway and Transportation Officials (AASHTO) Bike Guide, and a technical consultant for the National Association of City Transportation Officials (NACTO) Bike Guide. Jeremy has led dozens of all-day trainings on multimodal design topics, and his deep knowledge of design guidance and practical/constructable implementation projects gives him strong credibility with training attendees.

Kristie Di Cocco, PE

Senior Principal Engineer | Toole Design Group

Kristie is a licensed engineer in the state of New York and brings extensive experience developing solutions to complex multimodal transportation projects – from feasibility and corridor assessments through construction. She is well known for bringing passion and enthusiasm to projects and workshop discussions, allowing her to easily connect with attendees. Kristie is also a certified trainer for the National Highway Institute (NHI) for pedestrian and safety design elements.
