1. INTRODUCTION

Funds from the Genesee Transportation Council (GTC) Unified Planning Work Program (UPWP) were provided as a grant to continue a system for annually reporting changes in land use within Monroe County. Up-to-date land use data is important for transportation modeling and analysis and will be used by GTC as inputs into their traffic simulation model. This land use information will be used to assess changes in land use, identify trends, and help pinpoint “hot spots” of traffic congestion that may become candidates for possible traffic management solutions.

Keeping track of growth is essential to comprehensive land use decision-making. New land uses can place a strain on existing infrastructure and other community facilities. In reviewing development applications, communities should be aware of other proposed developments that could impact the proposed facility and the area in which the project is located. In response to the need to monitor proposed development, GTC and Monroe County Department of Planning and Development (County Planning) initiated a process to identify all proposed projects and approved major projects within a computerized database that can be updated on an annual basis.

The emphasis on major projects is intended to identify significant economic activity that can generate high levels of vehicular traffic and impact traffic operations on a particular highway or within a transportation corridor. This information is obtained as early as possible in the development process and actual construction activity is tracked each year until the project is completed.

County Planning also records detailed data on other proposed projects, which are below the thresholds for major projects. These “minor” projects are not monitored to determine if or when they were approved or constructed; rather, information on the location and type of proposed minor projects may be made available as needed to determine the cumulative development impacts of both major and minor projects when considering specific infrastructure improvements or analyzing development trends.

2. LAND USE DATA AND ANALYSIS

This report consists of three primary sources of land use data.

First, County Planning maintains a database of developments that are submitted to County Planning, in accordance with General Municipal Law § 239-l, -m, and -n by the city, towns, and villages of Monroe County.

Second, building permit data from the city, towns, and villages of Monroe County were collected via a survey in conjunction with Genesee/Finger Lakes Regional Planning Council ("G/FL").

Third, Monroe County Real Property data is used to provide land use classifications of the County as a whole and by each municipality.

Together, this data provides an overall view of the land use changes in Monroe County and is used by GTC in their transportation model to better inform their work as the Metropolitan Planning Organization for the Genesee-Finger Lakes Region. A brief description of each source of data and the key findings are presented below.

2.1 Development Review Major Projects

County Planning records all development projects submitted by the city, towns, and villages of Monroe County in accordance with General Municipal Law § 239-l, -m, and -n. The record of these submissions and responses is known as the Development Review Database. Projects that meet certain minimum requirements are deemed major projects. The minimum thresholds for major projects are as follows:

- 5 or more residential lots or dwelling units; or
- 5,000 square feet of non-residential gross floor area; or
- Rezoning for an area of 10 acres or more; or
- Proposed development is a significant traffic generator.

County Planning identified those proposed development projects that meet the thresholds in each calendar year. In the first quarter of 2025, detailed information on the proposed major projects for each municipality was recorded and submitted to the respective municipal staff for their verification of all data for each project. Each municipality was contacted for the current status of projects.

2.1 a Proposed Major Projects in 2024

A total of **122** major projects were proposed in Monroe County in 2024. Residential development took the lead with a count of **43** projects, followed by commercial development with **31** projects.

A total of **13** projects were proposed for industrial uses, **11** recreation and entertainment, **8** community services, **6** focused on mixed residential and commercial usage, **5** public service, **3** solar, and **2** higher education projects.

FIGURE 1 - PERCENTAGE OF MAJOR PROJECTS BY DEVELOPMENT TYPE

**122 MAJOR PROJECTS
WERE PROPOSED IN
MONROE COUNTY, THE
HIGHEST COUNT IN THE
LAST 7 YEARS.**

Of the 122 major projects submitted to Monroe County in 2024, there were three (3) applications for rezoning an area over 10 acres. Rezoning often indicates future development activity. As of Spring 2025, one of the rezoning requests has been approved, one is pending approval, and one was withdrawn.

The 43 residential projects submitted proposed a total of 2,459 residential units, which includes two (2) senior housing projects, proposing a total of 422 senior housing units. Additionally, five (5) of the 6 proposed mixed-use projects include 285 residential units.

In 2024, about half of the major projects were from these five municipalities: Henrietta (23), Penfield (13), Irondequoit (11), Perinton (10), and Chili (10). Henrietta has consistently led in the number of major projects from 2019 through 2024. Twenty-one (21) out of the 30 municipalities in Monroe County has at least one major project that was proposed in 2024.

Henrietta and Greece had the most major projects in the five-year total count, with 84 and 46 respectively. Figure 2 on the right shows the five years major project counts for each municipality in Monroe County, sorted by the 5-year total count of major projects.

The detailed information of the 122 major projects in 2024 is listed in **Table 1 – Proposed Major Projects in 2024**.

FIGURE 2 - 5 YEAR MAJOR PROJECT COUNTS BY MUNICIPALITY

2.1 b Cumulative Status of Major Projects: 2014 – 2024

Cumulative Status of Major Projects is a status report for major projects in Monroe County between 2014 and 2024, listed by land use. County Planning maintains a dataset tracking back to 1992; however, for the purpose of this report, we only include the most recent 10-year span, as it is a reflection of the projects most pertinent to the community's interests and needs. Our observations have shown that projects that remain unfinished after a decade often resurface for review. By focusing on the past 10 years, we provide a snapshot of the projects that have had the most immediate impact on the county's development and address the community's interest in ongoing project development.

In cases where a project is not listed under a land use category, the type of development has not been identified.

A major project will be deleted from this cumulative list only:

- If the project has been denied; or
- If the project has been withdrawn; or
- If the construction has been completed.

Table 2 – Cumulative Status of Major Projects: 2014 – 2024 is a list of all active major projects in Monroe County between 2014 and 2024 with their current status. This table is a valuable resource to track projects over multiple years, as many major projects take longer than one year to work through the approval, permitting, and construction process.

2.1 c Cumulative Status of Rezoning: 2004 – 2024

County Planning accumulates a list of all rezoning projects in Monroe County that have not resulted in final construction between 2004 and 2024.

Rezoning is often the first indication of future development activity, so tracking the rezoning projects is an important step in having full awareness of potential projects.

Table 3 – Cumulative Status of Rezoning, 2004 – 2024 is an accumulation of all rezoning requests that have not resulted in construction.

2.1 d Potential Development: 2025 - 2027

Supplied by municipalities through the annual Land Use Survey, potential development projects indicate major projects in the pipeline which were not formally submitted for approval in 2024. County Planning collected this information through our annual survey and 68 potential major projects were reported by municipal staff. The collected information is listed in **Table 4 – Potential Development: 2025 - 2027**.

2.1 e Final Maps

Four maps are generated to geographically represent many of the projects listed in this report.

- Map A – Proposed Major Projects, 2024, shows all of the major development projects submitted to County Planning in 2024;
- Map B – Major Residential Projects, 2024, identifies the residential developments of 5 units or more;
- Map C – Major Non-residential Projects, 2024, identifies the non-residential projects with at least 5,000 SF of development;
- Map D – Other Major Rezoning Projects, 2024, displays rezoning projects that are over 10 acres.

Map B, C, and D use different sizes of dots to differentiate the size of the development – bigger dots represent larger projects.

2.2 Land Use Monitoring Survey

Monroe County Planning and Genesee Finger Lakes Regional Planning Council (GF/L) collaborated on the collection of building permit data from the City, towns, and villages of Monroe County.

The data from the survey includes the number of residential and commercial building permits for each municipality in Monroe County. The residential building permit numbers are categorized by the type of residential structure, including:

- Single family (“Single Family”);
- Two (2) family (“Two Family”);
- Three (3) or four (4) family (“Three-Four Family”);
- Five (5) or more family (“Five + Family”); and
- Mobile or manufactured housing (“Mobile Housing”).

Residential building permit data is used in this Report to get the basic understanding of the residential development in the local municipalities within Monroe County. The overall residential permit data is listed in **Table 5 – Residential Building Permits Issues, 2024.**

2.2 a Residential Permits in 2024

Residential permit data was supplied by the 30 surveyed municipalities; a total of 531 residential permits (for new construction) were issued in 2024, creating 899 housing units, compared to 577 permits and 1,329 units in 2023.

The total number of residential permits issued in Monroe County has steadily decreased since 2014. Monroe County has issued 44.4% less residential permits in 2024 than in 2014. This trend points to a decrease of new housing development in the County overall, which may indicate constraints on housing production such as construction costs and other market conditions.

The City of Rochester permitted the largest number of residential units (167), comprising of 19.4% of the total residential units that were permitted in Monroe County in 2024. Other municipalities that permitted a large number of residential units are: Town of Henrietta – 124 units (14.4%) and Town of Gates – 99 units (11.5%).

Of the total number of residential permits issued, 84.4% of the permits were issued for single family home, whereas 3.2% for two-family home, 3.4% for three-four family home, 3.6% for five + family home, and 5.5% for mobile housing (Figure 4 – Percentage of Housing Type by Permits, 2024). Although the number of single-family permits in 2024 was 448 compared to 398 in 2023 (12.5% increase), the overall trend reflects a general decline in single-family residential permits.

FIGURE 3 - SINGLE AND MULTI-FAMILY RESIDENTIAL PERMIT COUNTS

FIGURE 4 - PERCENTAGE OF HOUSING TYPE BY PERMITS, 2024

Even though five + family home permits only make up 3.6% of the total issued residential permits, they make up a third of the total housing units permitted in 2024. The number of five + family units declined to 327 in 2024, the lowest in recent years, after totaling 693 units in 2023 and 784 units in 2022.

By total unit counts, single family homes comprise of 49.8% of all new permitted residential units; five + family homes comprise of 36.4% residential units; three-four family homes comprise of 7.7% residential units; whereas two-family homes and mobile housing comprise 2.9% and 3.2% respectively of the total units permitted in 2024. (Figure 5 – Percentage of Housing Type by Units, 2024).

FIGURE 5 - PERCENTAGE OF HOUSING TYPE BY UNITS, 2024

2.2 b Residential Unit Types Trend

Over the years from 2017 to 2024, our collected residential permit data show a fluctuating pattern in the construction of both single and multi-family housing units. Single family unit construction started relatively high in 2017, but gradually decreased, reaching its lowest in 2023. The number of single-family units has shown a consistent downward trend from 2017 to 2024, indicating a gradual decline in single-family housing development. On the other hand, multi-family unit construction experienced much more fluctuations. After accounting for the majority of new housing units between 2020 and 2023 -peaking at 72% of total units in 2020 – multi-family construction declined in 2024, both in units and as a share of total new housing. Despite the strong housing demand in the region, 2024 marks a decrease of construction for both housing types in Monroe County.

FIGURE 6 - SINGLE AND MULTI-FAMILY RESIDENTIAL UNIT COUNTS, 2017 & 2024

2.3 Land Use Classification

The New York State Office of Real Property Services has developed a simple and uniform classification system to be used in land assessment administration in New York State. The system of classification consists of numeric codes within specific land use categories. There are total of nine general land use categories and each category has several secondary categories. The land use code indicated for each project in the list of approved major projects conforms to this system. **(Appendix A - NYS Land Use Code Numbers and Categories)**

2.3 a Monroe County

This Report includes tables that summarize all of the land use codes by the nine general land use categories and calculate the total number of parcels/properties in each category. The total property acreage was also aggregated for each category. Percentages were calculated for both properties and acreage.

Table 6 – Countywide Land Use Classification Summary

provides a compilation of data for all municipalities in Monroe County in 2024. Sorted by acreage, the top three land uses in Monroe County are Residential (42%), Agricultural (21%), and Vacant Land (15%). Ranked by number of properties, the top three land uses are Residential (86%), Vacant Land (6%), and Commercial (5%).

County Planning started to include the Countywide Land Use Classification summary in 2007. Comparing data from 2024 and 2007, there has been an increase in acreage for Residential (+11,910 acres), Commercial (+3,337 acres), Parks (+2,461 acres), Public Services (+1,614 acres), and Community Services (+1,129 acres).

Conversely, there has been a decrease in acreage for Vacant Land (-12,727 acres), Agricultural (-4,715 acres), and Industrial (-1,291 acres). Recreation lands have remained relatively stable, with only minor acreage changes during this period.

Comparing more recent data from 2019 and 2024, Monroe County has seen an increase in land use classifications for residential (+7,826 acres), commercial (+1,212 acres), public services (+1,177 acres), parks (+794 acres) and industrial (+170 acres). There has been a decrease in land use classifications for vacant land (-2,509 acres), community services (-1,180 acres), recreation and entertainment (-130 acres), and agricultural (-73 acres).

FIGURE 7 - LAND USE CLASSIFICATIONS, 2007, 2019, & 2024

2.3 b Monroe County Municipalities

Table 7 - Land Use Classification Summary by Municipality provides the 2024 Property Classification Summary for each municipality in Monroe County. This breakdown is an instructive way to understand the dominant land uses in municipalities and by extension what types of uses comprise the tax base of each community. Additionally, annual tracking of this data helps communities understand how they are changing and the way things are trending; whether farm loss is occurring; residential development is trending up; etc.

County Planning started to include the Land Use Classification summary by Municipality in 2013. By comparing the 2019 and 2024 Residential land use classification data for all the municipalities, a tenth of the municipalities have a reduction in residential property acreage over the five-year period. The towns of Clarkson and Rush had significant reductions of 455 acres and 60 acres, respectively. However, about half of municipalities have remained stable with minimal residential property acreage changes. The remaining two-fifth of the municipalities have seen increases, notably Rochester and Sweden have significant increases of 5,003 and 504 acres, respectively.

Both Tables 6 and 7 were sources from the Monroe County Department of Environmental Services, GIS Division, parcel file in August 2025.

3. PAST YEARS PROPOSED DEVELOPMENT ANALYSIS

By observing the proposed developments spanning from 2017 to 2024, we hope to gain a better understanding of how land uses and development patterns are evolving in Monroe County, especially after the Covid-19 Pandemic. Development data over a significant period could also help stakeholders and community leaders envision long-term trajectory of the County.

The following section includes two studies to learn the changes of the recent years include years prior to and following the onset of the Pandemic. The first section is to track the aggregate count of major projects; the second is to observe the trend of different development types. The data is based on major projects proposed in the years 2017 through 2024.

3.1 Total Number of Major Projects

A total of 122 major projects were proposed in 2024, comparable to the numbers from the preceding years: 91 in 2023, 112 in 2022, 98 in 2021, 97 in 2020, 111 in 2019, 92 in 2018, and 100 in 2017. While 2024 marks the highest count compared to the previous seven years, this increase alone does not necessarily signify a new trend.

From 2017 to 2024, the average number of major projects is approximately 103 per year. Yearly project counts fluctuated by about 10 projects on average, reflecting a generally stable pattern with moderate year-to-year variability over the eight-year period.

FIGURE 8 - TOTAL NUMBER OF MAJOR PROJECTS IN THE YEARS 2017 - 2024

3.2 Development Types

There are three main development types in Monroe County: residential, commercial, and industrial.

From 2017 through 2020, the gap between residential and commercial development trended smaller, with residential generally leading. Beginning in 2021, commercial development outpaced residential.

In 2024, however, this pattern shifted as residential development spiked significantly, from 24 to 43 in 2024 reaching its second highest total in the past eight years and surpassing commercial development for the first time since 2020. While this may not necessarily indicate the start of a new trend, it marks an unusual shift compared with prior years and worth monitoring in future years. Industrial development remains relatively stable with minimal fluctuations.

	712	High tech. manufacturing and processing
	720	Mining and quarrying
	730	Wells
	750	Industrial product pipelines
800		PUBLIC SERVICES
	820	Water
	830	Communication
	840	Transportation
	850	Waste disposal
	852	Landfills and dumps
	860	Special franchise property
	870	Electric and gas
	880	Electric and gas transmission and distribution
900		WILD, FORESTED, CONSERVATION LANDS AND PUBLIC PARKS
	910	Private wild and forest lands except for private hunting and fishing clubs
	920	Private hunting and fishing clubs
	930	State owned forest lands
	940	Reforested land and other related conservation purposes
	950	Hudson River and Black River regulating district land
	960	Public parks
	970	Other wild or conservation lands
	980	Taxable state owned conservation easements
	990	Other taxable state land assessments

APPENDIX B – DESCRIPTION OF DATA ELEMENTS

Description of Database Elements

The following description of the database elements can be used to interpret the data provided in the attached tables:

Applicant's Name: The name of the applicant as it appears on the development referral form submitted to Monroe County Department of Planning and Development.

Census Tract Number: Small statistical subdivisions of a county determined by the United States Census Bureau.

Development Information: The name used by NYS and the Monroe County Real Property Tax offices to identify property categories.

Land Use Code: The three-digit number used by NYS and the Monroe County Real Property Tax offices to identify type of land use.

Number of Lots: Number of lots resulting from any subdivision of land.

Number of Units: Applies to number of units in an apartment project or a motel/hotel.

Parcel Address: The name of the primary access road to the property.

Project Name: The title or most recognized reference name for the proposed project, if available.

Project Status: Indicates if a project is approved, pending approval, under construction or complete.

Referral Number: This is Monroe County's identification number assigned to each proposed project submitted for our review. The capital letters represent the municipality, the year the project was initially proposed follows, and then a file number was assigned to each project. The letter at the end identifies the type of review (S = subdivision, Z = site plan review, special permit, or any other type of zoning action, and A = airport review).

Residential Conversion: Indicates that an industrial, commercial or vacant building was converted for residential use.

Senior Housing: Indicates that a project is for senior housing.

Special Needs: Indicates that a project is for a special needs development.

Tax Account Number: The County's Real Property Tax number.

Total Acreage: Total acreage of site to be developed.

Total Gross Floor Area (GFA): The total square footage of gross floor area (if available).

Transportation Analysis Zone (TAZ): This code number identifies the location of a property for use in the computer modeling system of Genesee Transportation Council.
