## Office of the County Executive

Monroe County, New York

**Adam J. Bello**  
County Executive

July 14, 2025

Greetings,

Thank you for reviewing the 2024 STOP-DWI Report. Monroe County is committed to keeping roads safe through a robust STOP-DWI program that includes prevention, awareness, enforcement, and education. The Monroe County Public Safety Department, Office of Probation, District Attorney's Office, and STOP-DWI collaborate together with the Monroe County Sheriff's Office and other law enforcement agencies to discourage anyone from driving while impaired.

In 2024, Monroe County law enforcement agencies were provided approximately \$120,500 from the local STOP-DWI Program, resulting in 1,460 local DWI arrests. As part of their DWI-enhanced enforcement efforts, local law enforcement also participated in several High Visibility Engagement Campaign Holiday Periods in conjunction with the NYS STOP-DWI Foundation, sending the message to all that driving while impaired will not be tolerated.

In 2024, 951 people attended DWI Victim Impact Panels where DWI victim survivors addressed an audience of DWI offenders about the traumatic and lifelong consequences of driving while impaired. These Victim Impact Panels are very impactful, as there is no substitute for hearing directly from those personally affected by impaired driving incidents. These educational panels are open to the public, and high school and college students often attend.

Staff within the STOP-DWI program are tasked with providing impaired driving prevention awareness and education to the community. In 2024, this work included almost 100 school programs, community events, interviews with media, and more that reached thousands of people in an effort to keep roadways safer. This team continues to grow these connections, including connections with the DMV/County Clerk and Youth Bureau Office, and offerings in hopes that fatalities and serious injuries from this preventable crime will decrease.

STOP-DWI requires our constant vigilance and ongoing focus to ensure that we continue to have an impact. Every driver has the opportunity to make this community safer by choosing not to drive under the influence of drugs and alcohol- and by helping our loved ones make safe choices. It is important to remember that we all have a role to play in saving lives. Thank you for your efforts.

Sincerely,

Adam J. Bello  
Monroe County Executive

CE LETTER

Since 1982, the Monroe County STOP-DWI Program has served to educate the community regarding the dangers of impaired driving and provide funding to groups and organizations engaged in activities related to prevention of alcohol and other drug-related crashes. STOP-DWI is funded by local fines and fees collected from drivers who choose to drive under the influence of alcohol and/or drugs.

---

#### **Monroe County STOP-DWI offers:**

- Anti-impaired driving programs including presentations & panelists, videos & interactive activities that can help to replicate an impaired experience.
- Individually tailored traffic safety education fairs for all ages & settings.
- Resources with statistical, educational & legal information relevant to DWI.
- Exhibits for display showcasing Victim's stories.
- Training & technology for improved enforcement and prosecution efforts.
- Statistical data analysis assistance to our partners.
- Victim services to support healing and resiliency.

#### **Monroe County STOP-DWI supports the efforts of:**

- Coalition for Crime Victims of Monroe County
- Finger Lakes Collegiate Task Force
- HEALTHY Hilton Coalition (HHC)
- Monroe County Office of Traffic Safety
- Prevention Alliance of Monroe County
- Rochester Against Intoxicated Driving (RAID)
- Rush and Henrietta Community Health & Safety Coalition
- Students Against Destructive Decisions (SADD)
- Uplift Irondequoit
- WHEN: Webster Health Education Network

#### **Monroe County STOP-DWI provides funding to:**

- Monroe County District Attorney's Office
- Monroe County Law Enforcement Agencies
- Monroe County Office of Probation and Community Corrections
- Pre-Trial Services Felony DWI Diversion Program & Driving Under the Influence (DUTI) Program

This 2024 report summarizes information regarding the daily efforts of the STOP-DWI Program and centralizes vital statistical data relative to the state of DWI in Monroe County.

# MEET OUR TEAM

Principal Central Police  
Services Administrator

**Adrianne Stewart**

STOP-DWI Clerk & VIP  
Facilitator

**Tommy Khounlivong**

School Bus Video  
Specialist

**Jean Triest**

OTS Traffic Safety Specialist,  
CPS Technician & Instructor

**Amy Henderson**

OTS Traffic Safety Specialist,  
CPS Technician

**Jazmin Harvey**

School Bus Video Specialist,  
CPS Technician

The Office of Traffic Safety expanded substantially in 2024, allowing our STOP-DWI program to more frequently receive support as we provide prevention education throughout Monroe County. This proved instrumental in our success and the strength in our program's presence in the community.

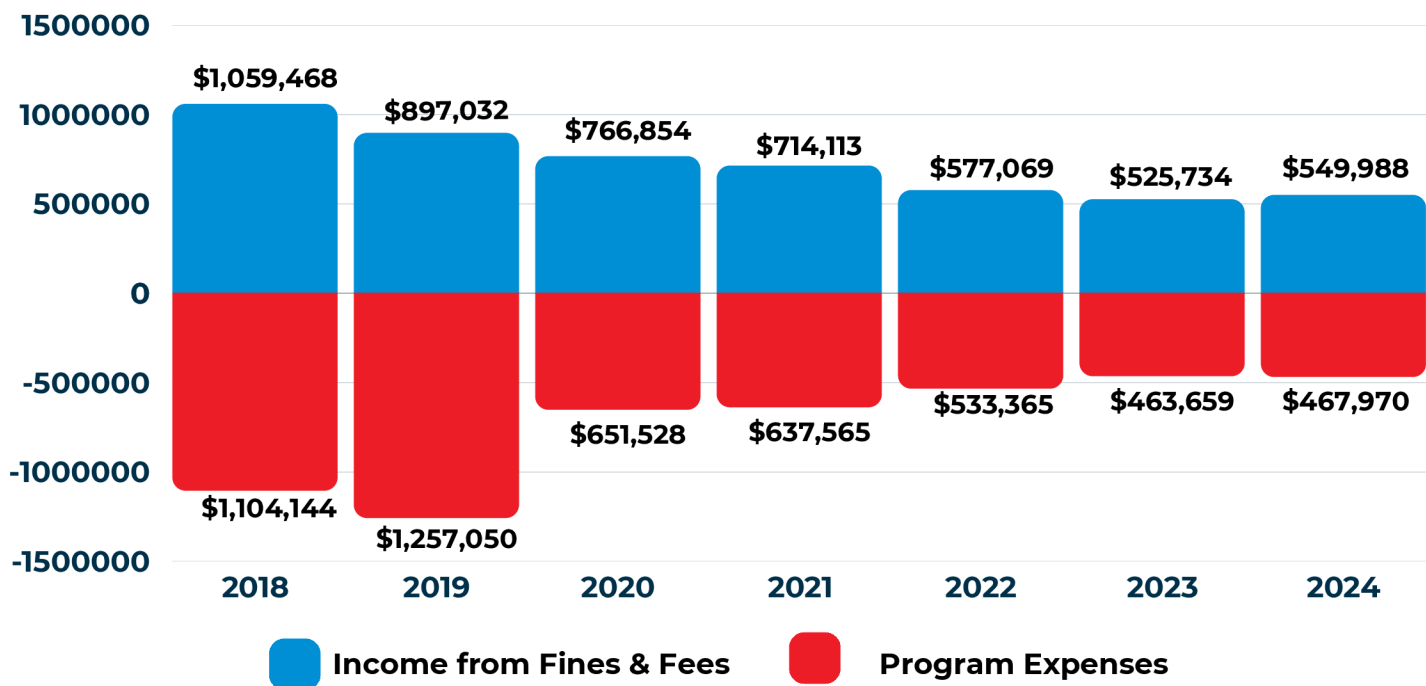

As always, we continue to feel fortunate to have so many incredible Department of Public Safety partners that afford us the ability to best serve the community.

As showcased in this report, the choice to drive impaired continues to be made in our community whether it involves alcohol, drugs, or both, and we remain thankful that our team has the opportunity to bring this important awareness!

**Lindsay Tomidy, Program Coordinator**

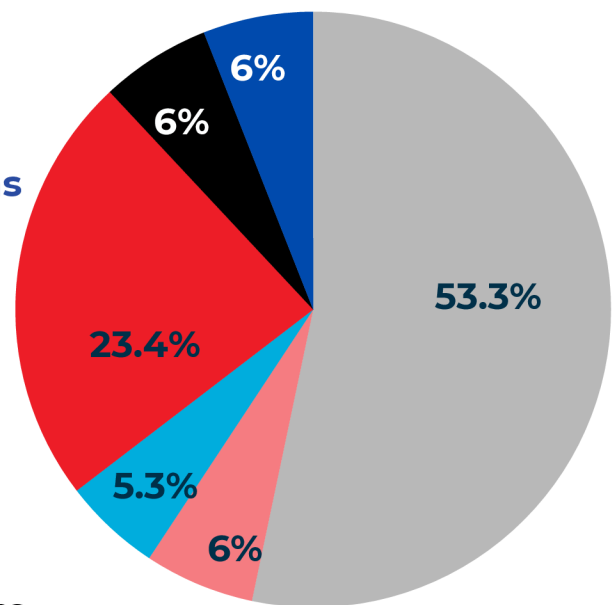

# INCOME & EXPENSES

## 2024 Approved Budget

- 53.3% Administration and Victim Impact Panel**  
 Our staff works tirelessly to implement every aspect of the program and constantly be a well known resource for all impaired driving prevention needs.
- 23.4% Enhanced Enforcement**  
 With our funding coming from fines, proper equipment, training and overtime compensation is crucial for more arrests.
- 6% Probation & Community Corrections**  
 Our DWI division within probation oversees over 1,000 defendants who've proven to be high risk and in need of monitoring.
- 6% Pre-Trial Services**  
 Defendants who are deemed appropriate by the DAs office are sent to diversion programs in an effort to rehabilitate.
- 6% District Attorney's Office**  
 To help ensure proper staffing for convictions, our program funds some of the Vehicular Crimes Bureau within the DA's Office
- 5.3% Public Information & Education**  
 Much of our administrative work comes in bringing awareness among as many community members as possible. For this we need supplies.

## Community Events

In 2024 our office attended over 40 community events including parades during High Visibility Engagement periods; fire and law enforcement open houses and national night out events; events in underserved neighborhoods; and more. Our reach continued to expand, as we met with almost 30,000 community members. We also expanded our Lights on for Life Motorcade and strengthened our presence at our sponsored Amerks Game and Red Wings Game.

## Traffic Safety Education

For school engagement in 2024, we presented in more classrooms and auditoriums (26) and supported or facilitated 14 larger scale events. These events offered traffic safety related activities to demonstrate the importance of making safe choices while driving, including use of our exhibit panels or victim survivor stories directly to share local crashes with fatal outcomes. This put us in front of over 6,200 students in both high school and local colleges!

## Public Relations & Campaigns

We are thankful to AAA for once again including us in their “100 Deadliest Days” press conference to help reinforce reminders to teens and parents to make safe choices during summer months. Other opportunities for press coverage included information about the St. Patrick’s Day enforcement period and statewide legislation to provide surcharges for DWI/DWAI charges to STOP-DWI. We also assisted with some great coverage for our law enforcement partners, featuring new DWAI technology advancements and holiday period ride-alongs.

# Overall Social Media Insights

We saw continued growth in engagement across our social media channels as well as an increase in followers. Social media has helped us highlight our event involvement and school programs to a much larger audience. We have more consistently shared statewide and national traffic safety campaigns. We believe that traffic safety IS public safety and the ability to highlight this to as many people as possible is imperative in spreading awareness and saving lives.

# VICTIM IMPACT PANEL

The Monroe County DWI Victim Impact Panel (VIP) consists of DWI victims addressing an audience of DWI offenders and guests about the impaired driving crashes in which they experienced injury or a loved one was killed. The goal of the panel is to deliver a message to raise awareness of the ripple effect of impaired driving with the intent to save lives and decrease recidivism. This does not replace conventional sentencing but compliments it. The VIP fees collected are allocated to the Victim Honorariums, staff, security, equipment, and more. The first DWI Victim Impact Panel was held in Monroe County in January 1992. The Panel is required as a sentencing tool for all DWAI/DWI offenders and is open to the public for education.

In 2024, we continued to finetune the statistical information shared in the first part of the program as we want to ensure participants realize how lucky they are to be in the audience vs. a more final fate. This is helpful in giving context to the defendants in their ability to make a change going forward.

## Victim Advocacy

While we were unable to receive grant funding for a second annual therapeutic summit, we successfully drew attention to victims' rights through a press conference alongside the Coalition for Crime Victims of Monroe County.

In 2024, we were also able to support our victim panelists as they spoke beyond the Victim Impact Panels in front of many students across Monroe County.

# VIP Appreciation Dinner

Forty people attended the STOP-DWI Victim Impact Panel appreciation dinner at Nucci's Italian Steakhouse on November 19. We were fortunate to be able to show our gratitude to volunteers for their support and victims for their willingness to share their personal experiences. Nineteen certificates of appreciation were presented to the various attendees who make the Victim Impact Panel possible.

VICTIM IMPACT PANEL

According to New York State Law, an individual is Driving While Ability Impaired (DWAI) if their Blood Alcohol Concentration (BAC) is between .05 and .07. They are considered Driving While Intoxicated (DWI) if their BAC is .08 or higher. They are considered Aggravated DWI if their BAC is .18 or higher. They are considered Driving While Ability Impaired by Drugs (DWAI-D) if the driver is impaired by drugs. In 2024, Monroe County DWI/DWAI arrests totaled 1,460. Outside of these arrests, officers increased engagement with the community at various events facilitated by our office or their own agencies.

Monroe County Law Enforcement Agencies received a sum of \$101,496 from the STOP-DWI Program in 2024 for use in their DWI enhanced enforcement efforts. This includes not only enforcement, but also various equipment and training needs, as well as time in court.

The Monroe County STOP-DWI Program also received a grant in the amount of \$72,000 for High Visibility Engagement Campaign holiday periods from the NYS STOP-DWI Foundation. Over \$52,000 was spent on overtime for New Years, St. Patrick's Day, Memorial Day, July 4th, and Labor Day. We also expanded these efforts in 2024 to include overtime on summer weekends!

## STOP-DWI & Traffic Safety Board Awards

In 2024, we hosted 105 people as we honored those who worked especially hard to keep our roads safe. Three police departments received awards for their increased DWI efforts: East Rochester, Brighton and Greece Police Departments. The STOP-DWI "Top Cop" was awarded to Deputy Erin Beach, Monroe County Sheriff's Office. Twenty-one officers were chosen by their departments to receive certificates for their great efforts. This year we presented three Leadership awards and a Coordinator's Choice Award to Rochester Police Department's Officers Bonnacci and Lathrop, SUNY Brockport University Police Officer Schultz and Irondequoit Police Department's Officer Bruckel, respectively.

The awards and reception are intended to keep the officers motivated to focus on the problem of impaired driving in our community and show our appreciation for their partnerships. We are eternally grateful!

## Monroe County Annual DWI/DWAI/DWAI-D Arrest Trends

## 2024 Drug Recognition Expert Evaluations

A Drug Recognition Expert (DRE) is a police officer specially trained in recognizing symptoms and behaviors that are caused by drugs. A DRE evaluation is requested when impairment is evident, and alcohol is not suspected, or the impairment is inconsistent with the BAC. The DRE gathers evidence to further support signs of impairment by drugs, a medical issue, or no impairment. There were 116 DRE evaluations conducted in Monroe County during 2024.

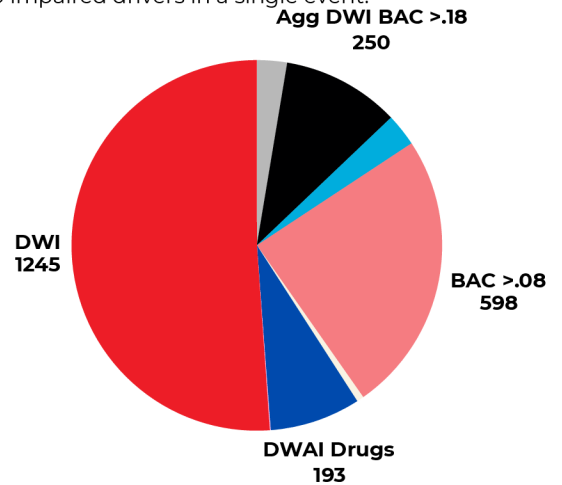

# Impaired Ticket Data

## Monroe County Total Alcohol and Drug Impaired Driving Tickets

\*\*In cases submitted for drug testing. Does not include ethanol-only cases.

FORENSIC TOXICOLOGY

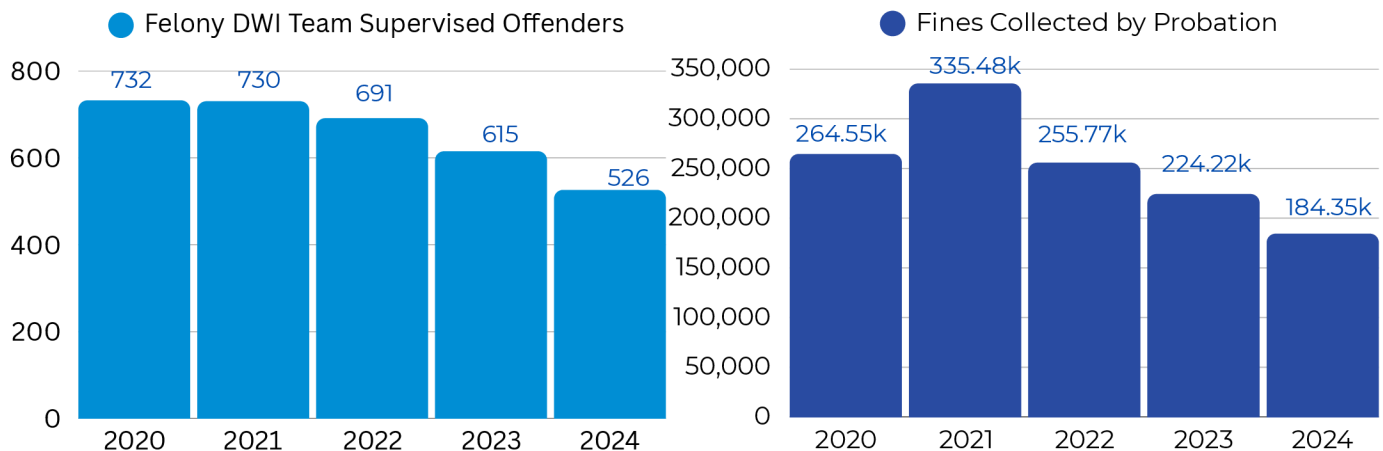

## Felony DWI Unit

The Monroe County Office of Probation - Community Corrections received \$30,750 from STOP-DWI in 2024 to support services of two high risk DWI units. During 2024, these units supervised an average of 526 high risk offenders at any given point during the year.

The DWI Felony units are comprised of nine (9) Probation Officers who supervise offenders in the office and through field work, one (1) Officer who prepares Pre-Sentence Investigations, and one (1) Probation Assistant who solely monitors conditional discharge cases. Additionally there are two (2) Senior Probation Officers who supervise high risk offenders. In addition to supervising offenders, a Senior Probation Officer is responsible for coordinating the Victim Impact Panel referrals, staffing the Victim Impact Panel with Probation Officer volunteers, coordinating DWI Surveillance Details to monitor offenders' driving habits, and statistical data collection. STOP-DWI funds 10% of this SPOs salary. The second Senior Probation Officer monitors all active Ignition Interlock Devices for the probation department which includes installations, de-installations, subsidized installations, and violations of the IID.

Overall, the Office of Probation supervised DWI offenders from a total of 1,168 cases during 2024. This includes supervision of misdemeanor DWI offenders, offenders convicted of Vehicular Assault, Vehicular Manslaughter, Leaving the Scene of an Accident in which an Injury Resulted in Death, and numerous offenders convicted of Aggravated Unlicensed Operator.

Field Work					
2024 Home Visits	Positive Home Visits	Percent Positive	Collateral Contacts	Collateral Positive BAC's	Percent Positive
1,445	894	61.8%	298	24	2.6%

# Probation Monitoring

In 2024 this Office monitored a total of 1,152 offenders who were ordered to have Ignition Interlock Devices if they have a vehicle. This not only includes field visits as outlined below, but also quarterly DMV checks to make sure offenders do not have access to any vehicles that do not have the interlock.

Probation Officers and staff frequently conduct monitoring of DWI offenders to ensure compliance with the conditions of their probation. This is done by field visits. DWI Surveillance Details are assembled to target offenders deemed at risk for repeat offenses. The Details are conducted with the goal of enforcing conditions of probation, and prohibiting unlicensed operation of a motor vehicle or consumption of alcohol.

Alco-sensor tests enable officers to confirm the absence or presence of alcohol and, if appropriate, to quickly intervene through either a Violation of Probation and/or suitable treatment alternatives. Urine-screen tests are also conducted in the office to detect the use of alcohol and/or drugs. Early detection and expedited intervention further protect the offender, the community, and enhance public safety.

The Office of Probation and Community Corrections is committed to monitoring high-risk probationers convicted of DWI offenses.

## DWI Surveillance Details - Surveilled & Driving Include Appointment Arrivals

Quarter	Number Surveilled	Observed Driving

COMMUNITY CORRECTIONS

# Driving While Intoxicated Felonies

The Vehicular Crimes Bureau of the District Attorney's Office received \$30,750 in STOP-DWI funds in 2024.

Felony Case Activity for 2024 was categorized by the District Attorney's Office as follows:

- 371 Felony Arrests
- 50 Felony cases accepted by Pre-Trial Diversion Program
- 321 Cases kept for felony review
- 232 Misdemeanor Dispositions [Includes plea offers made on felony cases after successful participation in Pre-Trial Diversion Program, as well as misdemeanors due to no prior felony conviction]
- 41 Pre-Trial Favorable Termination  
[Number of defendants successfully completing the Pre-Trial-Diversion Program during the year. Includes carryover from 2023]

District Attorney's Office Felony DWI Case Activity					
	2020	2021	2022	2023	2024
Felony Arrests	666	459	394	385	371
Pre-Trial Diversions	169	72	52	58	50
Remaining Felony Cases Screened	497	387	342	327	321
Trials	6	10	13	8	3
Trial Convictions	6	10	7	8	3
Superior Court Pleas	428	297	356	381	326
Total Superior Court Convictions	223	286	252	216	236

Source: Monroe County District Attorney's Office. This figure includes AUO 1st cases in which the defendant may not have also been charged with a DWI offense.

## **Pre-Trial Felony DWI Diversion**

Felony DWI Diversion is a deferred prosecution program whereby all criminal proceedings for cases screened to Pre-Trial Diversion are delayed, following an upfront plea to a felony DWI, while the client engages in a planned treatment program. The client is monitored in the treatment program over a six- to eight-month period. Participation is voluntary and clients must agree to immediately surrender their driver's license upon entering the program and pay a program fee. Clients are screened through the District Attorney's Vehicular Crimes Bureau before referral to the Diversion program.

Favorable termination from the Felony DWI Diversion program is based on the client's ability to demonstrate significant attitudinal and behavioral change and follow through on the treatment plan and Diversion contract requirements. This results in an offer to withdraw their felony plea, plead guilty to a misdemeanor, and be sentenced to 3 years of probation.

If termination is unfavorable, then the case proceeds to sentencing on the felony plea and the client is subject to a sentence range of 5 years of probation up to a maximum sentence of 1 1/3 to 4 years with the Dept. of Corrections. There is no reduction to a misdemeanor. Diversion is offered only once.

Pre-Trial Felony DWI Diversion saw fifty cases for intake in 2024. Of those cases closed in 2024, forty-one were closed favorably for an 82% success rate.

Pre-Trial is committed to providing effective intervention with multiple DWI offenders and will continue to measure the long-term outcomes for the program.

## **Driving Under the Influence Program**

Structured to provide a sentencing option for those convicted of DWI, the Driving Under the Influence program offers an intervention-focused approach. Those sentenced to this program attend structured classes Tuesday and Wednesday evenings, addressing important issues such as alcohol abuse, personal responsibility and reducing risk-taking behaviors. Judges sentence offenders for a specific number of weeks. Clients are required to pay a program fee. Both attendance and client progress are monitored closely by the staff and reported back to the court.

During 2024, 201 clients were sentenced to the program. Of those who completed within the year, 90% did so successfully. The average number of weeks spent in the program was 7.4.

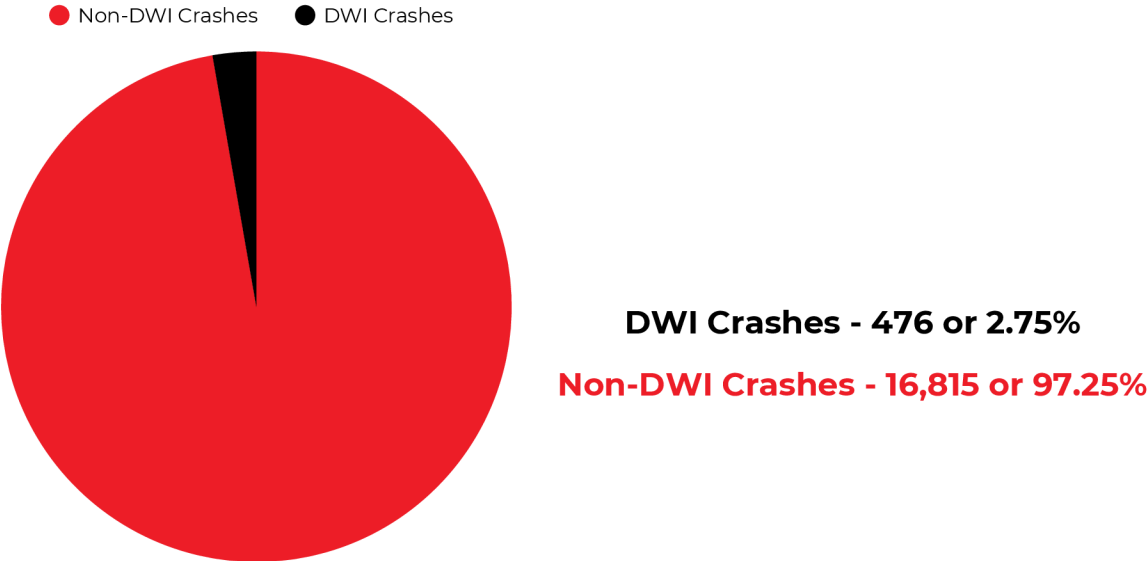

STOP-DWI provided \$30,750 to support this sentencing option in 2024.

THANK YOU!

Thank you for taking the time to review our annual report for 2024. We are so grateful for the opportunity to serve this community and bring awareness in the area of impaired driving prevention. This crime is continuous, this crime is real, and most importantly this crime is preventable.

We are available should you have any questions about impaired driving statistics or facts, a desire to work together going forward, an event you think we should attend to spread awareness, a concern regarding impaired driving and traffic safety, or maybe you have had a great experience in this regard that you want to recognize! Do not hesitate to reach out! We are always open to new ideas and ways we can better serve our community.

## Highlights to look for on the Monroe County website:

- Make sure to look for our detailed program guides and sign-up form for future event partnerships or presentations. These include both impaired driving prevention & other traffic safety topics. Visit the guide to find resources tailored to your audience and needs in traffic safety awareness, whether you are working with students, staff drivers, educating your own teens, or others.
- Our office also works on the Community Traffic Safety Team for Monroe County where you can submit traffic safety concerns for individual review and response, including impaired driving concerns.
