CHERYL DINOLFO
COUNTY EXECUTIVE

The Monroe County EcoPark is a state-of-the-art recycling facility. Considered one of the first of its kind, the EcoPark is a one-stop shop for any recycling needs, and a great community resource to encourage environmental sustainability. Monroe County's partnership with Waste Management at the EcoPark has accelerated recycling innovation and will continue to protect the environment for years to come.

2.94M e POUNDS OF WASTE

Since its opening, 2.31 million pounds of electronic waste has been collected at the EcoPark. Televisions, radios, computers and other pieces of electronic equipment have been diverted from landfills, keeping the lead and other hazardous waste out of the ecosystem. The remaining material from this equipment is recycled and re-used in many newly manufactured consumer products.

1,560 TONS of HOUSEHOLD HAZARDOUS WASTE

Household Hazardous Waste products, such as paint, flammable substances and other home chemicals, can become environmental hazards when not disposed of properly.

These substances can leak into the soil and contaminate our drinking water. The team at the EcoPark have the knowledge and equipment necessary to recycle these hazardous chemicals and convert them into harmless waste.

36,624 POUNDS

of pharmaceuticals

have been collected at the EcoPark.

Pharmaceutical waste does not decompose and can do significant damage to our environment if not recycled properly.

138 CUBIC YARD BOXES

OF RECYCLED CLOTHING

Clothing is Passed Along to Local Donation Centers
