AIRPORT ROADWAYS TEMPORARILY CLOSED

All roadways at the Greater Rochester International Airport are temporarily closed. The Monroe County Sheriffs Office is investigating a suspicious condition.

Inbound arriving passengers are being held in the gate area until the Monroe County Sheriffs Office has completed their investigation.

Outbound departing passengers should stage in the Red and White Parking Lots until the roadways are reopened as they will not be allowed to enter airport property until the investigation is complete. Passengers should check with their airline to see if their flight has been delayed. If their flight has departed, passengers should contact their airline for re-booking.
