For some questions, you will be given information in two or three sentences followed by four restatements of the information. You must then choose the best version. For other questions, you will be given paragraphs with their sentences out of order. You must then choose, from four suggestions, the best order for the sentences.

# Principles, practices and theory of real property assessment

These questions test for a knowledge of the equalization rate process, the assessors' calendar, the content of the assessment roll, and the exemptions from real property taxes in New York State. These questions will also test for the ability to use public relations skills when confronted by individuals in your municipality.

## Supervision

These questions test for knowledge of the principles and practices employed in planning, organizing, and controlling the activities of a work unit toward predetermined objectives. The concepts covered, usually in a situational question format, include such topics as assigning and reviewing work; evaluating performance; maintaining work standards; motivating and developing subordinates; implementing procedural change; increasing efficiency; and dealing with problems of absenteeism, morale, and discipline.

## Understanding and interpreting Real Property Tax Law

These questions test for the ability to read, interpret and apply the New York State Real Property Tax Law. You will be provided with brief reading selections based on or taken from the New York State Real Property Tax Law, followed by one or more questions. All the information needed to answer the questions is contained in the reading selections. No prior knowledge of the subject is required.

The subject matter of the selections may not be specific to the titles for which we are testing. The purpose of these questions is only to test for the ability to read and interpret this type of material at an appropriate level of difficulty.
